

46. A learning system as set forth in claim 37 characterized in that storage of the learning contents is effected in a plurality of learning card file compartments and that the learning contents can be stored, wherein a known learning content is advanced into a learning card file compartment with a higher degree of knowledge, and wherein the learning contents of the learning card file compartment with the highest degree of knowledge are no longer introduced into the visual presentation on the display screen (3, 20).

47. A learning system as set forth in claim 37 characterized in that the content of the learning contents stored in the learning material memory (6, 26) is variable.

48. A learning system as set forth in claim 47 characterized in that the content of the learning contents stored in the learning material memory (6, 26) is variable by the learning person himself.--

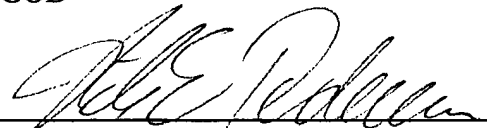

REMARKS

The present Preliminary Amendment presents claims 37-48 upon which U.S. examination is to be based.

Respectfully submitted,

Heinz GÖD
